

We make

MODERN WORKING ENVIRONMENTS A REALITY

ABOUT EBF

EBF is specialist for the modern workplace.

Our services and solutions make digital, mobile, and flexible working a reality. We ensure a great user experience and relieve your IT.

Our many years of experience, a large partner network, outstanding technological and development expertise, agility, and flexibility, plus plenty of passion make us the ideal partner for our customers – from medium-sized businesses to DAX 30 companies, including both local and international firms across all sectors. We can offer the right solution for every single business – and if we can't, you can rest assured we'll develop one just for you.

We always want to be a reliable partner for our customers and use our expertise and, above all, our passion to create modern workplaces - workplaces that inspire companies, IT and employees.

Markus Adolph

Founder and Managing Partner of EBF

OUR SOLUTIONS

Innovative concepts for a modern, digital workplace

Unified Endpoint Management and automated migration

Successful employee experience with mobile working

Mobile security — high level of security for devices and data

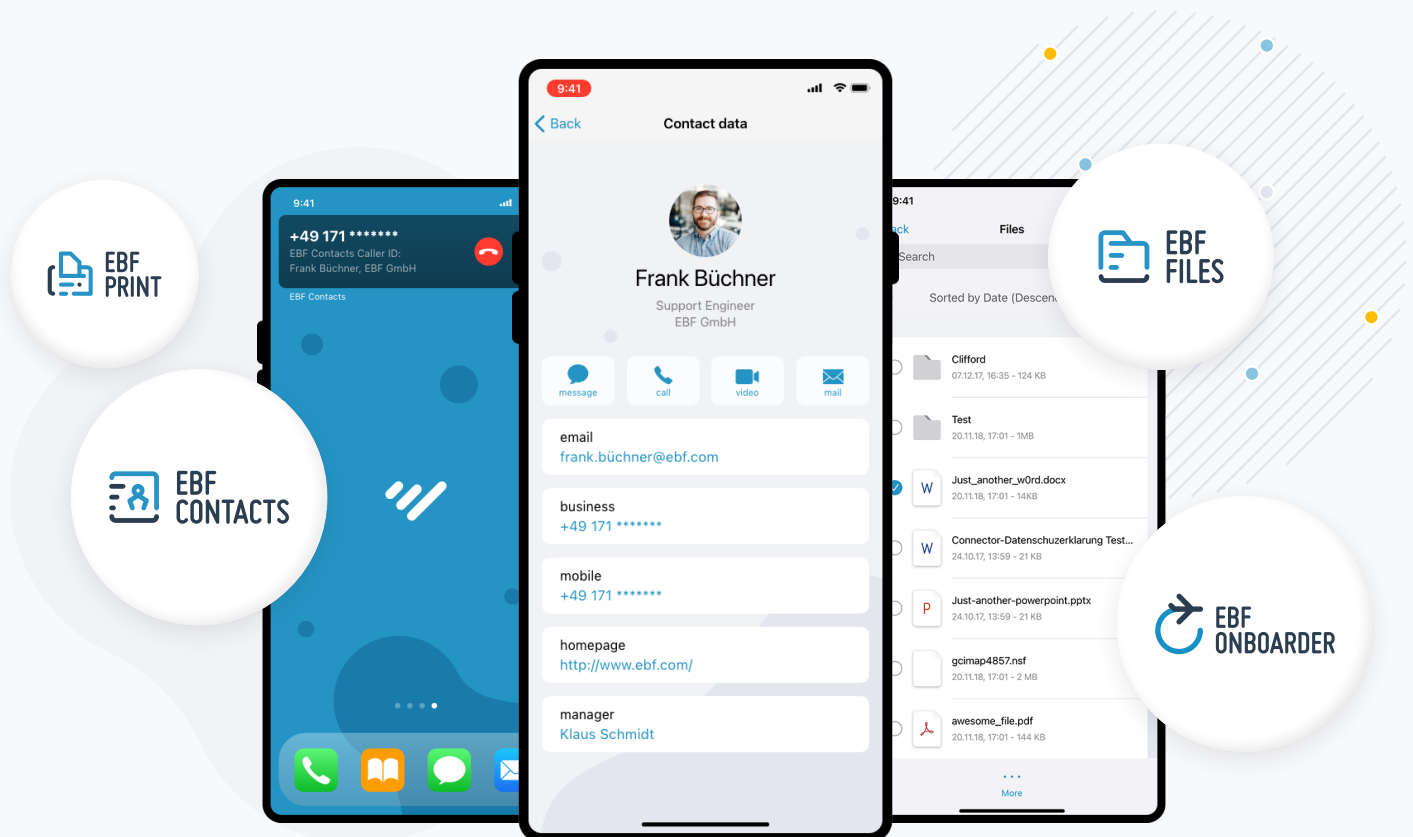

Hosting in the EBF cloud or in your data center

Reliable support and first-class managed services

INNOVATIVE, PROPRIETARY SOLUTIONS

We develop solutions for your specific requirements. We concentrate on agile methods, cloud-based technologies, standardization and modularization. These are the foundations of our tried and tested EBF UNITE principle.

PROVEN METHODS

We have developed an approach that allows us to carry out your project reliably and smoothly. We always keep your requirements in mind and find the best implementation option for you, which we then implement effectively. And of course we can also support you at single steps.

A STRONG PARTNER NETWORK

Our vast and steadily growing network of partners helps us to ensure that we retain our position as an independent leader for innovation and technology. These are some of the partners we work closely with.

ISO 27001 CERTIFIED

Our ISO 27001 certification is evidence of our high level of information and IT security, for powerful protection of confidential data and great system availability.
